PROFILE

Dedicated and organized professional with 24 years of experience with a strong background in security management, risk assessment, and crisis management., up to date with the latest security threats and technologies and ability to adapt with the organization's security strategy accordingly.

EDUCATION

- MBA** 09/2020 - 06/2022
Arab Academy for Science, Technology and Maritime Transport (AASTMT), Egypt, Cairo
- Core Business Education: MBA programs typically offer a comprehensive curriculum covering various core business disciplines, including finance, marketing, management, operations, strategy, accounting, and economics. These courses provide students with a solid foundation in the fundamental principles of business.
 - Leadership and Management Skills: MBA programs aim to develop leadership and management skills. Students learn how to make strategic decisions, lead teams, solve complex business problems, and manage resources effectively.
 - Practical Experience: Many MBA programs incorporate real-world experiences through internships, consulting projects, case studies, and opportunities to work on business challenges. This practical exposure helps students apply their knowledge in real business settings.
 - Networking: MBA programs often provide a platform for building a professional network. Students interact with peers, faculty, and guest speakers who have extensive industry experience. These connections can be valuable for future career opportunities.
- Bachelor's degree in military science** 11/1997 - 06/2000
Egyptian Military Academy, Egypt, Cairo
- Core Military Subjects: BMS programs typically include courses in military history, tactics, strategy, and leadership. These subjects are essential for preparing future military officers.
 - Physical Training: Physical fitness and training are integral components of a BMS program. Students are often required to meet certain fitness standards and engage in physical training to build strength, endurance, and discipline.
 - Leadership Development: The development of leadership skills is a central focus of BMS programs. Students learn about leadership theories and principles, and they may participate in practical leadership exercises and training.
 - Military Operations: Students are taught about military operations, including the planning and execution of missions, logistics, and the use of various military equipment and technology.
 - National Security and Defense Policy: BMS programs often include coursework in national security, defense policy, and international relations. Students gain an understanding of the geopolitical and strategic considerations that inform military decision-making.
 - Ethics and Law: The ethical and legal aspects of military service are also typically covered in BMS programs. Students learn about the laws of armed conflict, military ethics, and the rules governing the use of force.
